HAUSMANN 4-HOOK IV POLE
4-hook detachable top cap with push button release. Four leg anti-tip heavy steel base equipped with four 2" diameter twin-wheel nylon casters. Pole height adjusts from 49" to 85"H.
2188 IV Pole

GRAHAM FIELD TEMCO FIVE-LEG DELUXE I.V. STAND
Chrome-plated, steel I.V. pole height adjusts 38 1/4" in 1" units. Easily converts from a 2 to 4-hook pole. Five-leg base offers maximum stability. Swivel, ball-bearing casters provide smooth rolling on all surfaces. Base is molded of non-breakable, truss-reinforced plastic. Sure-Grip clutch nut provides a full range of height positions.
GF7050-1 5-Leg Deluxe I.V. Stand, 2-Hook

GRAHAM FIELD TEMCO SELECT CARE I.V. STANDS
Low profile base prevents tipping and the swivel ball bearing casters facilitate a smooth transport on the pole on all surfaces. Base width: 25". Height: 46 3/4"-85".
GF7012-1 Select Care I.V. Stand, 2-hook
GF7051-1 IV Pole, 4 Hook, 5 Wheel Base

GRAHAM FIELD TEMCO STAINLESS STEEL DELUXE I.V. STAND
Circular, ram-horn hooks provide secure suspension of solution containers. Friction-grip lock permits height adjustment without danger of slipping. Tower rod is cushioned to absorb noise if accidentally dropped. Five-leg base is cast aluminum with satin finish. Height: 48"-86".

ADC® VALVE RESUSITATION MASK/1-WAY VALVE
Triple channel air cushion design provides greater surface for maximum airseal and patient comfort. Facemask plastic housing remains rigid for greater durability in higher temperatures. See-thru design enhances patient monitoring. Standard 22mm supply and 6mm oxygen ports provide compatibility with most support equipment. The disposable one way valve prevents victim’s exhaled air from returning into the rescuer’s mouthpiece by directing it through exhaust ports.

4050  Triple Seal Mask
4051  One Way Valve Mask
4052  Valve Mask Combo

HUDSON RCI SELECT-A-VENT MASK KIT
Safe, simple and reliable means of accurately delivering a specific concentration of oxygen. Kit features six color-coded diluters: 24%, 28%, 31%, 35%, 40% and 50%. Includes adapter for high humidity entrainment and 7 feet oxygen supply tubing.

1098  Select-A-Vent Mask Kit, 50/cs

HUDSON RCI AEROSOL MASKS
Clear, soft vinyl for patient comfort. Adjustable nose clip assures comfortable fit. Specifically designed for aerosol therapy. Accepts 22mm I.D. aerosol tubing. Does not include tubing.

CLINTON SIGNATURE SERIES OAK TREATMENT TABLES
Distinctive oak base. Fire retardant, 2” thick urethane foam padding. Vinyl upholstery features Permablok 3, a protective top coat specially designed to resist stains, scuffs, and germs. Solid oak legs and H-braces—not particle board. Leg levelers insure a level work surface. For extra support and strength, steel angles (not wood scraps) attach the top to the frame. The wood frame is finished in an attractive natural finish. Each segment is upholstered using a single piece of vinyl eliminating unraveling seams and dirt collecting pockets.

AKRO TOOL CADDY
Deep compartments hold loose parts, cleaning supplies or tools for easy transport between work areas. One-piece molded polypropylene for lasting durability.

AKRO-GRIDS
High density polyethylene resists most solvents and chemicals. Injection-molded for uniform wall thickness and resistance to stress cracks. Ribbed design gives added strength. Dividers allow sub-division of the containers, down to a 1 1/4" square compartment size. Three colors: red, blue and gray. Clear 3" x 5" plastic label holders (optional) snap securely on any side of the container.

AKRO-LOGIC™ ORGANIZERS
New European-inspired storage organizers. Professional-grade polypropylene construction withstands year of abuse. Removable bins are interchangeable with other Akro-Logic™ organizers. Latches slide and lock to prevent accidental opening. Comfortable and easy-to-carry handle.

AKRO-MODUBOXES
Built in divider slots allow sub-dividing of the containers. Reinforced lip. Boxes are molded of tough gray high density polyethylene. Lids are available for security in shipping and storage. Snap-on, transparent plastic card holders are available. Can be securely attached to any container.

AKRO-NSBEES™ NEST AND STACK BINS
Injection molded co-polymer polypropylene for economy, strength and durability. They are waterproof, resistant to grease, oil, solvents, chemicals and autoclavable up to 250°F. Reinforced side ribs. Built-in stacking posts and postholes. Generous hopper front gives easy access to stored items and the large label area allows quick content identification. Specify color when ordering: blue or yellow.

HAUSMANN ECONOMY GOOSENECK LAMP

2182  Economy Gooseneck Lamp

WELCH ALLYN HALOGEN EXAM LIGHT™ III
Intense halogen lamp provides brilliant 3200°K light, 750 footcandles of a 4” spot at 16”. Yields smooth, even, cool illumination at distal end (48”). Extremely small distal output with easy-to-use focusing system for adjusting and concentrating the light spot. Includes fiber optic light pipe, focusing sleeve, and light box. Mounts on wall, table, desk, or mobile stand. 110-130V, 50/60 Hz.

48700  Exam Light III (stand not included)
48700  Exam Light III neonate light pipe

BREWER INCANDESCENT BASIC EXAMINATION LIGHT
6 1/2” reflector system allows for reduced shadows during examinations. Our non-metallic head eliminates the dangers of a “hot” metal lamphouse. The power cord is hidden to avoid entanglement. Chrome dipped bulb will protect your eyes from unwanted filament images causing pupil dilation and irritation. Manufactured in USA.

15100  Basic Examination Lamp

RITTER 152 HALOGEN EXAM LIGHT
A halogen light that uses a 35 watt quartz halogen bulb. It provides 1,500 footcandles at 24” for an optimum amount of light for general use without high cost. The 3,000K color temperature provides a cool white light for optimum color recognition. Uses dichroic coating to eliminate infrared light, which permits only cool light to the doctor’s work area. Uses a unique heat sink, which effectively removes heat from the bulb and its socket. This feature increases the life of the bulb for minimal downtime. A small head section features high quality lighting without being burdensome. Listed by ETL to UL2601, the medical and dental equipment standard, and assures the customer of their safety. Designed in accordance to the strict aesthetic standards of the Ritter line of medical products. Cord is located at the lowest point of the light base, for optimum cord management. Heavy gauge, vinyl covered spring steel in gooseneck to prevent sagging.

152-001  Halogen Exam Light w/35 watt quartz halogen bulb

DAZOR BROAD TABLE AREA FLUORESCENT LIGHTING

RITTER 151 INCANDESCENT EXAM LIGHT

An incandescent light that uses a standard, low-wattage 25 watt bulb. When this bulb is used with their enhanced, multi-faceted, wide-beam reflector, the quality of light is comparable to that of higher wattage bulbs. Uses a plastic reflector and a vented back section that removes heat and keeps surfaces cool to the touch. Listed by ETL to UL2601, the medical and dental equipment standard, and assures the customer of their safety. Designed in accordance to the strict aesthetic standards of the Ritter line of medical products. Cord is located at the lowest point of the light base, for optimum cord management. Heavy gauge, vinyl covered spring steel in gooseneck to prevent sagging.

### SECA 210 MEASURING MAT

The measure mat II is the simple and quick way to measure a baby's growth from day one. The mat's soft touch, lightweight rubber is gentle enough for baby, yet portable enough for easy storing and durable enough for wall mounting. It is extremely handy in delivery rooms where newborns are measured upside down.

### SECA 851 DIAPER SCALE

Will keep tabs on everything in a baby's diaper down to two grams. Its lightning quick digital readout keeps messy job time to a minimum. And it is as easy to clean as it is to store. Capacity: 4 lbs = 0.1 oz or 2 gm. Dimensions: 5 3/4"W x 1 1/2"H x 9 1/2"D. Power Supply: Battery operated (9V included).}

### SECA 334 INFANT SCALE

Represents maximum safety and accuracy when weighing babies. Although its weighing tray is designed to be far more generous and comfortable than other models, at only 7 lbs itself, it requires amazingly little space. Has a large, clear LC display and practical handle, which can also be used to hang the scale. Capacity: 44 lbs/20 kg. Dimensions: 25"W x 4"H x 11 3/4"D. Power Supply: Battery.

### DETECTO MODEL 8450 DIGITAL BABY SCALE

Powered by 6 “C” cell batteries. Optional 115VAC power adapter.

SECA 674 DIGITAL PLATFORM SCALE
A multi-functional electronic flat scale designed especially for people needing assistance or heavyweights. Thanks to its extremely flat and large platform with built-in ramp, weighing people in wheelchairs or seated during dialysis is no problem at all. Comes with transport castors so it is easy to move. Capacity: 800 lbs/300 kg.

SECA 674C DIGITAL PLATFORM SCALE
Represents a step up from the 674 through the incorporation of Smartcare technology. Each unit comes with three holders and cards for use by practitioners in accounting for wheelchair weight. It is no longer necessary to remember the unique weight of each wheelchair, just simply insert the appropriate Smartcard into the scale, weigh the patient and chair, and only the patient’s weight appears. Capacity: 660 lbs/300 kg.

DETECTO STATIONARY GERIATRIC WHEELCHAIR SCALE
Capacity: 1000 lb x .2 lb/450 kg x .1 kg. 7” high-contrast LED display with keypad tare. Powered by AC adaptor. Smooth steel platform covered with black rubberized mat. 24” ramp. 25’ cable. Adjustable platform height 2 3/4” to 3 1/4”. Blue/black.

DETECTO STATIONARY WHEELCHAIR SCALES
Platform size: 30”L x 26”W x 2”H with non-skid mat. Padded handrail for ambulatory patients. Platform is designed to accommodate most all sizes of wheelchairs. Ramp provides smooth approach and exit and attached to either side of platform.

DETECTO WHEELCHAIR SCALES
Mechanical eye-level physician scale with 27”W x 30”D ramp, without height rod.
**SECA 664C DIGITAL WHEELCHAIR SCALE**

All the quality and functionality of the Seca 664 with the added feature of Smartcard technology. Each unit comes with six holders and cards for use by practitioners in accounting for wheelchair weight. It is no longer necessary to remember the unique weight of each wheelchair brand, just simply insert the appropriate Smartcare into the scale, weigh the patient and chair, and only the patient's weight appears.

**SECA 984 BED AND DIALYSIS SCALE**

Allows bed-ridden patients to be weighed simply, carefully and accurately and is an indispensable constituent of dialysis and intensive care. Integrated lifts allow four measuring platforms to be placed under the castors of the bed. The previously determined weight of the bed is tared using the pre-TARE function and the patient's precise weight accurately determined. The bed scale stores all the previously determined values and retains the information in the event of a power failure using rechargeable batteries. Package contains: Scale w/digital display, four loaded cells w/integrated mechanical lifters and equipment trolley. Capacity: 1100 lbs/500 kg.

SECA 606 ELECTRONIC VETERINARY SCALE
An extremely accurate and dependable scale for weighing pets. The tare function allows a small animal to be weighed in a basket. Simply place a basket on the scale, tare out the basket and place the pet in the basket. Only the pet’s weight will show. The dampening function ensures reliable weighing to calm animals, restless animals and very restless animals. The rough surface consists of scratch-resistant plastic and is very easy to clean. The anodized frame construction and the sealed wooden plate at the bottom of the scale make the scale highly moisture resistant when the floor in the vet practice or clinic becomes wet. The intelligent auto-hold function will continue to display the animals weight after it has left the scale. The battery capacity is sufficient for 16,000 weighings. The scale turns off in two minutes when using batteries.

- 220 lbs capacity. Platform size is 35.4” x 23.6” x 3”.

606  Electronic Veterinary Scale

Exam tables. Were they as good as they could get? We had a hunch they weren’t, so we asked doctors, nurses and patients what features they thought the perfect exam table should have. They answered. We listened. We went to work. The result? ACCESS. A new approach to exam table technology, featuring revolutionary step, storage and versatility systems. Examine Brewer’s ACCESS. You’ll find that exam table standards have been raised a few notches. Contact your ABCO dealer representative for more information about the ACCESS Exam Table.

Fecal Occult Blood Test

Why Occult Blood Testing?

- Colorectal cancer kills over 1,000 Americans every week.
- With early detection, the survival rate is over 85%.
- The American Cancer Society recommends a digital occult blood test every year over age 40 and a take home test every year over age 50. According to the American Cancer Society, two-thirds of Americans who die of colorectal cancer each year could be saved by early diagnosis and treatment.
- Reimbursable under CPT Code 82270 and Medicare Code G0107 for screening only.
